

User

1. User Registration and Profile Management

- Enable social login (Google, Facebook).
- Allow users to showcase portfolios with detailed galleries.
- Add skill tags and certifications to artist profiles.

2. Service Management

- Enable waitlists for fully booked services.
- Provide templates for artists to describe their services professionally.

3. Order and Payment Management

- Payment Gateway

4. Artist Availability Management

- Artists can define their daily availability (e.g., 10 AM - 6 PM).

5. Time Slot Configuration

- Artists can configure slot durations (e.g., 30 minutes for short mehendi, 4 hour for bridal mehendi).
- Option to set a maximum number of customers per slot (e.g., 2 people per hour).

6. Customer Booking System

- Customers can view available slots in a calendar view.
- Customers can book a slot and receive confirmation upon successful booking.

7. Real-Time Updates

- Automatically update availability after a slot is booked.
- Send notifications to customers and artists about bookings, changes, or cancellations.

8. Cancellation Policy

- Option for customers to cancel or reschedule a booking (based on artist policy).
- Allow artists to set cancellation deadlines (e.g., cancellations allowed 24 hours in advance).

9. Buzz Tab (Event Management)

- Allow ticket bookings and payments for events.
- Enable virtual events with integrated video conferencing (Zoom, Google Meet).
- Add post-event reviews and ratings for attendees and organizers.

10. Review and Rating System

- Add detailed feedback options (categories: quality, communication, delivery).
- Introduce badges for highly-rated artists (e.g., "Top Rated," "Customer Favorite").

11. Advanced Search and Filters

- Filters for service categories, price range, location, and ratings.
- Add keyword-based search with typo correction.

12. Customer Wishlist

- Allow customers to save services they are interested in.
- Notify them when there are discounts or availability.

13. Blog Section

- Add a blog for artists to write about their journey, tips, and experiences.

14. Integrated Chat System

- Real-time chat between artists and customers for queries.

Admin

1. User Management

- Account Suspension or Blocking

2. Event Management

- **Event Highlighting:**
 - Pin featured events on the homepage or Buzz tab.
- **Event Approval Workflow:**
 - Approve or reject events submitted by artists.

3. Verification Processes

- Add ID or portfolio verification for artists to build trust.
